

Sunday 17th.
1:00 o'clock

Dear Family:

I received my marks this week and must admit that they were not so hot. I got ~~two~~ C's in chemistry, English, Military Science, and math, a B in an art appreciation course which is so simple that I could hardly help it. I also received a D in Phys Ed; no doubt a throwback to Franklin J.J. Diemer (or something) Next time will be a different and happier story I hope.

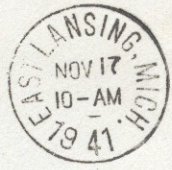

Every body here is talking about Thanksgiving vacation, and I am looking forward to it. I was unable to secure a ride with any of the students coming to Buffalo. It seems that most of them have been filled up for several weeks. Chuck has a ride with a fellow who is an acquaintance of his ~~uncle~~ uncle. He is, however,

By the way do not plan to meet the train. I will
get home with a lot less fuss by myself. It
will probably be Wednesday night.

As Ever
