

Sunday Noon

Dear Family

Your cards and gifts really made my birthday a happy one. I can hardly believe I'm 20 though. I just missed getting a sound whacking from the boys by a spiders tail.

I got my mid-term grades this week and they were quite respectable

Chem - A
Germ - B
Engl - B
PhysEd - C
Math - C
Speech - C

I hope math will stay at a "C" but I have my doubt.

This afternoon I am going to entertain an instructor and his wife at a tea ~~party~~ here at Mason-Abbott.

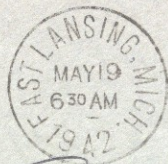

MICHIGAN STATE COLLEGE

I have a date to the affair and I
hope it will come off smoothly.

I have to work up until a half
hour before the affair so I'll be quite
rushed.

Well I must apologize for
the shortness of this letter but I
have to dash off.

As Ever
